PRODUCT IDENTIFICATION NUMBER (P.I.N.) OR SERIAL NUMBER

When you need parts or information, or when you write to your authorized dealer, always give the:

1. Tractor Model Number
2. Tractor Product Identification Number (P.I.N.)
3. Engine Model Number
4. Engine Serial Number
5. Engine Specification Number

For reference, write the numbers below

**TRACTOR MODEL AND
PRODUCT IDENTIFICATION
NUMBER**

**ENGINE MODEL, SERIAL
AND SPECIFICATION NUMBERS**

ENGINE IDENTIFICATION P/N C48056

BRIGGS & STRATTON
MODEL NUMBER 303447

VANGUARD 16 HP
SPEC. NUMBER 1441-E1

See your local Briggs & Stratton dealer for engine parts.

NOTE: In this catalog there are references to serial numbers. To order the correct part, use these serial numbers as a guide.

GENERAL INFORMATION

INDEX

There is an index at the front and rear of this catalog. The front index is an alphabetical index of the major groups or assemblies. The rear index is a numerical index of the part numbers and pages on which these numbers are shown.

ILLUSTRATION

Each illustration in this catalog shows a group of parts or components. These parts and components are aligned approximately as the parts and components on your machine. Each part and component in an illustration has a reference number. These reference numbers are in a list on the page opposite of the illustration. Next to the reference number is the part number, description and required quantity of the part shown in the illustration.

UAR - "Use as required" indicates that the part quantity is variable.

NSS - "Not sold separately" indicates that the part is only available as a component of an assembly or the part must be purchased locally. If the part is an assembly component, the description will be indented under the assembly description in the parts list.

O/L - "Obtain locally"

****** - "Footnotes" are added to a part number when more information is needed for identification. They only relate to the part numbers indicated.

PARTS ORDERS

All orders must include the following information:

1. Correct part number.
2. Complete description of part or component.
3. Total quantity of each part or component.
4. Product model number.
5. All necessary product identification numbers.
6. Method for sending the parts.
7. Complete and correct address.

CATALOG REVISIONS

As the product changes, new pages will be available for your catalog. A notice will be issued.

IMPORTANT: Put all revisions into the catalog as soon as possible.

RIGHT HAND AND LEFT HAND IDENTIFICATION

The words right hand (RH) and left hand (LH) as used in this catalog indicate the direction while you are in the operator's seat in the normal operating position.

INDENTED DESCRIPTIONS

An assembly can have many components. The components of an assembly are indicated by an indented description. The quantity for an indented part is the total needed for that complete assembly. See the example below.
